WHY FIRST3YEARS?

Our Impact Lasts a Lifetime. 80% of brain development happens by the time a child turns age 3. During these first 3 years of life, the brain is making connections that will become the foundation for all other learning.

First3Years has 35 years of success in our community supporting the healthy development of infants and toddlers.

Generously underwritten by Property Advisers Realty, Inc.; 100% of fees and sponsorships go to the non-profit First3Years.
